

EXCURSION

management software

Facing difficulty in
managing children during
excursions?

Don't
Worry...

Here is
our all-new 

**“Excursion
Software”**

it includes

following

features

Manage and ensure

Student Safety

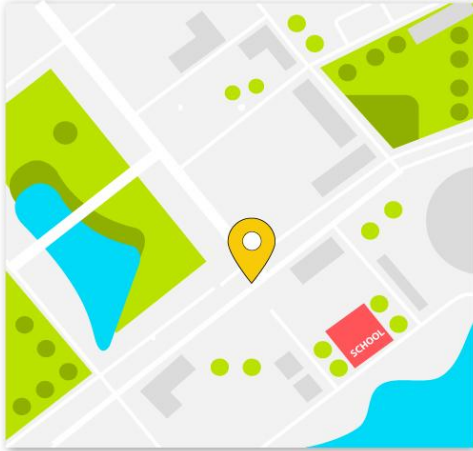

during excursions

Manage

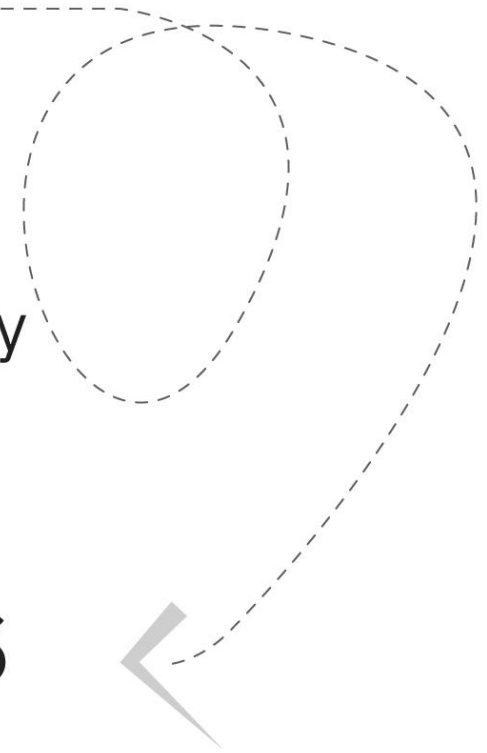

Student Transportation for excursions,
one day trips, etc

There is an instant trip option for any

Unexpected or
Unplanned trips

Manage

Student Attendance

Uses smart
wristbands to
Track Students and **Mark Attendance**

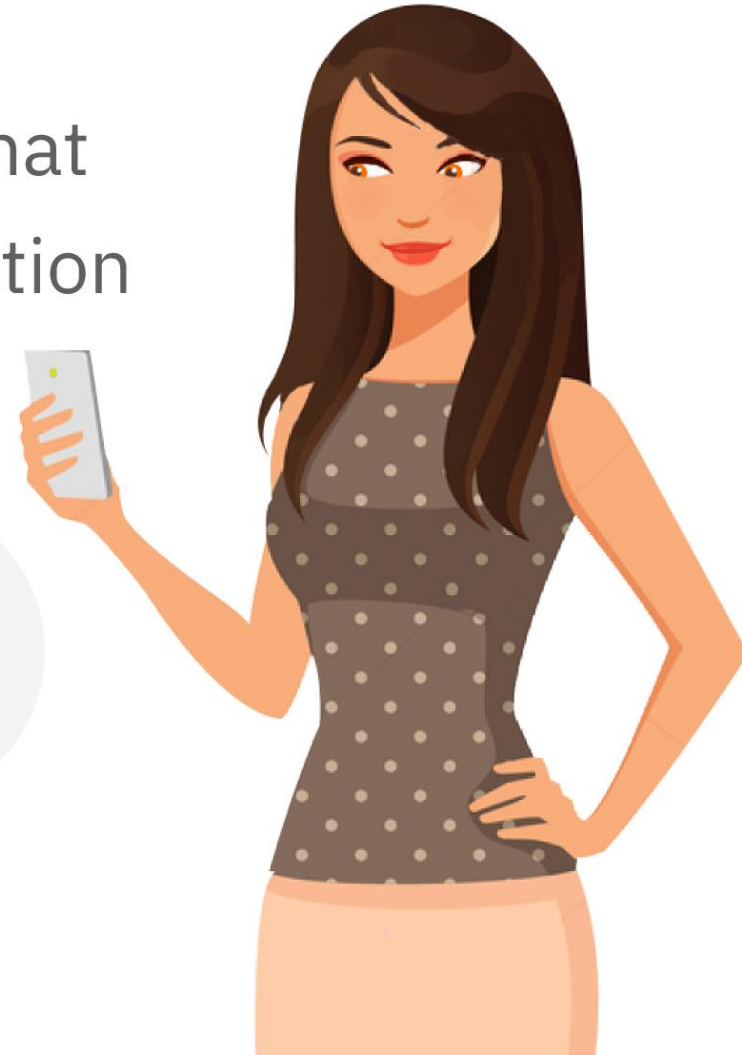

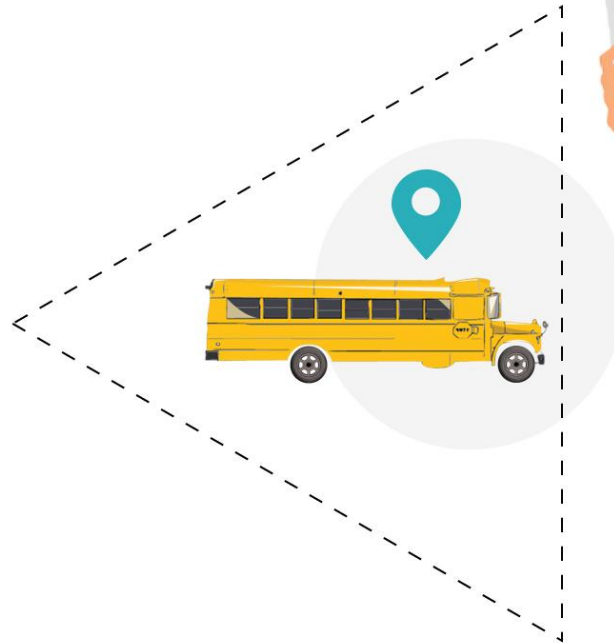

Records Attendance & Navigation

between the **start** and **end** location

And it is linked to

parent app so that
parents get real time information

The Excursion Software even includes

Auto routing

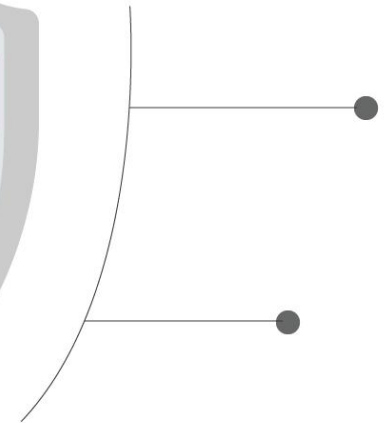

for making Navigation easy

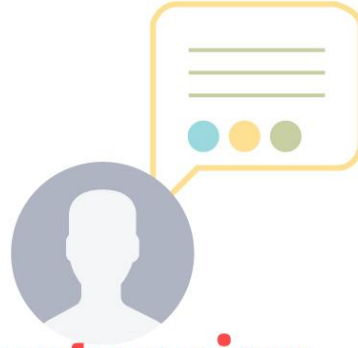

You can be assured of

Data
safety and **security**

In case of **emergencies**,

Smart Notifications

are sent to all concerned profiles

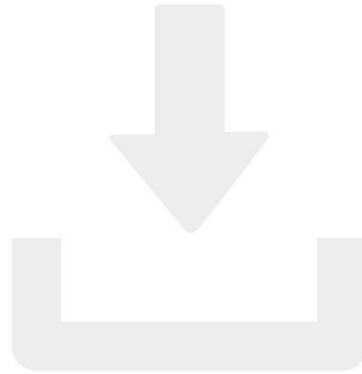

The system also provides

Geo-fencing

for student proximity
risk management

You can save

Historical Trip details for
future reference
